

Annual Area I President Report

Area I held six events in 2017. The Collaborative meeting with Leading Age to discuss Department of Health surveys and issues was well attended in the Pittsburgh Area. 3M hosted a dinner and inservice on Incontinence-Associated Dermatitis in Monroeville on February 22. Dr. Dawn Stein DPM and Dr. Colby Cox DPM spoke on lower extremity ulcerations and treatment at the Grove City Country Club on March 22. Through a grant written by PADONA, Organogenesis sponsored the wound care inservice. Bruce Hainan, Acadia Pharmaceuticals, hosted two inservices on delusions and hallucinations associated with Parkinson's Disease Psychosis. Dr. Kwiat did a great job educated all who attended. It was held in Mars on 5-31 and Hermitage on 7-20. Angelo Gregorio with Sanofi provided dinner and education on Toujeo in the Hermitage area on 10-17. We greatly appreciate the education provided by the vendors for the area meetings.

Respectfully submitted,

Terri Gabany
Area I President
