

## PRESS RELEASE

### ProCare Medical Announces New Dealer Agreement With Med-Mizer

#### Healthcare Beds Now Sold and Serviced by ProCare Medical in Mid-Atlantic Region

LANCASTER, PA. January 6, 2015 – ProCare Medical is pleased to announce a new dealer agreement with Med-Mizer, Inc., a leading US healthcare bed manufacturer. Effective immediately, ProCare Medical will serve as the exclusive dealer for Med-Mizer healthcare product sales, parts and service throughout PA, NJ, DE, MD and the NY metropolitan markets.

“The addition of the Med-Mizer product line, including its patented RetractaBed®, is an excellent fit for us,” stated Dwayne Stauffer, President of ProCare Medical. “Our vision at ProCare Medical is to be an innovative and leading provider of healthcare solutions. All of our products and services, now including the Med-Mizer healthcare beds and new RehabStation, focus on maximizing outcomes while providing safety for the caregiver and comfort for the resident.”

ProCare Medical represents leading manufacturers like Prism Medical patient lifts, slings and transfer aids, Rane bathing tubs, Lopital shower chairs and trolleys, and Broda chairs. Headquartered in Batesville, Indiana, Med-Mizer offers products that are American-made and backed by their commitment to quality. Their patented and FDA-approved RetractaBed® is the first retractable high low bed which reduces resident fall risks, increases caregiver efficiency and resident independence.

**About ProCare Medical:** ProCare Medical, based in Lancaster PA, provides products for lifting, transfers, resident hygiene, seating and positioning, throughout the mid-Atlantic region. With a focus on providing safety for the caregiver and comfort for the resident, products offered by ProCare Medical allow for safe caregiving while maintaining a high level of dignity. From complete Safe Patient Handling Programs to best in class solutions to maximize outcomes, we are solving the problems of today within the acute care hospital, long-term care, group home and community-based settings.
